**Subject:** [Mentee Name]

Hi Brenda,

I hope you are well and are surviving teaching 577 and then jumping into 672. I am also hoping having \_\_\_\_ and the a TA in 672 has provided some assistance.

I wanted to ask you whether you would like to continue working with \_\_\_\_ in the spring while teaching 569. She is going to become an official mentee in our mentee program. I will be working with her in my courses and I would like to have another instructor work with her. If you prefer not to, it is ok. I do not want you to feel any pressure. It will not affect my opinion of you or your employment in anyway. It is completely up to you. If you are willing to work with \_\_\_\_ while teaching 569 please let me know.
